Ali Khazaei

Backend Developer, Database Design, Math Teacher
Karaj, Alborz Province, Iran

Summary

Node.js Backend Engineer with over 2 years of experience with both backend and front-end developing.

I build clean, scalable REST & GraphQL APIs using JavaScript/TypeScript, Node.js, Express, Apollo, and Docker, backed by MongoDB, PostgreSQL, MySQL, and SSR via Pug/EJS.

I'm also focused on data modeling, along with leveraging AI agents with n8n.

Open to collaborating with fellow devs.
